SIDEWALK INSPECTION & REPAIR PROGRAM

Schedule of Bid Prices

Dear Property Owner:

As part of the Sidewalk Inspection and Repair Program, you have been notified to repair your sidewalk.

This schedule of bid prices is to assist you in calculating the estimated cost you may incur if you choose to have the City perform the repairs to your sidewalk; feel free to use this price schedule on the front and back as a guide to obtain separate bids from the contractors of your choice. Depending on the contractor assigned to your survey area, these prices may be subject to change.

If you choose to have the City repair your sidewalk, please complete the enclosed SIRP Options Agreement and mail the agreement back to us. Please note that the estimated amount of work indicated on the enclosed Notice is only an estimate, and additional work may be required once construction has commenced.

If you choose to have the sidewalk repaired by your own contractor, please be advised that before work may commence, you or your contractor must obtain the appropriate permit(s) as indicated on the attached Notice. Please contact the permitting agency listed on the Notice for additional information and requirements. All permit applications, whether made in person or by mail, must be accompanied with a copy of the Notice and inspection report. All work shall be performed in accordance to City specifications, and the finished work must be defect-free.

Note: The option to repair the sidewalk with your own contractor expires in thirty days of the date of the Notice.

Whether you choose to repair the sidewalk with your own contractor or with the City's contractor, we thank you for your participation in the Sidewalk Inspection and Repair Program.
