

# ALERT !

This is to notify you that this project site may be located in an **archaeologically sensitive area**. If you notice anything that indicates the presence of an archaeological resource within the project site, the **San Francisco Environmental Review Officer** must be contacted **immediately**. If you see anything that appears like archaeological remains call: **(415) 575-9075** or **575-9024**; and immediately **inform the Public Works Resident Engineer**. All work within the vicinity of the discovery must stop until the Environmental Review Officer has evaluated the discovery. You should be on the lookout for both prehistoric and historical archaeological sites. It is not always easy to identify archaeological sites when they are encountered. Below are some things that may indicate the presence of an archaeological site.

## PREHISTORIC ARCHEOLOGICAL SITE

- Concentrations of shellfish remains
- Evidence of fire (ashes, charcoal, burnt earth, fire-cracked rocks)
- Concentrations of bones
- Recognizable Native American artifacts (arrowheads, shell beads, stone mortars (bowls), humanly shaped rock)

## HISTORICAL ARCHEOLOGICAL SITE

- Building foundation remains
- Trash pits
- Privies (Out-house holes)
- Floor remains
- Wells
- Concentration of bottles, broken dishes, shoes, buttons, cut animal bones, hardware, household items, barrels, etc.
- Debris from the Great 1906 Earthquake and Fire (thick layers of burned building debris, charcoal, nails, fused glass, burned plaster, burned dishes, etc.)
- Wood structural remains (building, ship, wharf, etc.)
- Clay roof/floor tiles
- Stone walls or footings
- Gravestones
