Describe the size and use of any other equipment to be removed: _____

Describe the size and use of the replacement equipment: _____

Describe the size and use of any new equipment to be added: _____

Modifications to Utility Pole

Describe any required modifications to the utility pole: _____

5. Required Documents (check and provide documents)

- Attached is a photograph of the existing Personal Wireless Service Facility
- Attached is a location drawing of the proposed modified Personal Wireless Service Facility in twenty feet (20') to one inch (1") scale (20:1 scale) showing each of the following:
 - (a) Street name
 - (b) Names of cross streets
 - (c) The utility pole to be used;
 - (d) All existing facilities on the utility pole (if applicable) and
 - (e) All proposed facilities on the utility pole
- Attached is photographic simulation of the proposed modified Personal Wireless Service Facility at the proposed location.
- Attached is a verified statement from a registered engineer that: (i) potential human exposure to radio frequency emissions from the permitted Personal Wireless Service Facility is within the FCC guidelines; and (ii) noise at any time of the day or night from the permitted Personal Wireless Service Facility is not greater than forty-five (45) dBA as measured at a distance three (3) feet from any residential building façade.
- Attached is a verified statement from a registered engineer stating that the proposed modification of the existing Personal Wireless Service Facility: (1) would not compromise the structural integrity of the utility pole and will be in compliance with any standards imposed by the Northern California Joint Pole Association in its Operations/ Routine Handbook, or the pole owner if other than the Northern California Joint Pole Association; and (2) would comply with the California Public Utilities Commission General Order 95 and/or the National Electric Safety Code.
