NOTICE OF CONSTRUCTION

Pavement Renovation and Sewer Replacement (VL53)
Buena Vista West (Central to Frederick)

Contract No. 1187i

Project Description

San Francisco Public Works has hired Precision Engineering, Inc. to replace the sewer main, some side sewers, install new ADA curb ramps and to reconstruct the roadway on Buena Vista West from Central Ave to Frederick Street. Our engineers have inspected the sewer main and have determined it needs to be replaced.

The typical sequence of sewer work is to install the main along the block(s) followed by sewer lateral replacement. Once the sewer main has been installed, Public Works’ engineering team will review video of the sewer laterals to determine which, if any, need to be replaced. The sewer laterals are the connection between the main and the sidewalk. Crews will then schedule any lateral replacement work.

Please note: sewer laterals will be replaced on an as-needed basis between the main and sidewalk. Sewer service will not be interrupted during construction. Please continue to use your household and business

Monday - Friday: 7:30 am – 5:30 pm
February 6 through April 3, 2023

(Although weekend work is allowed, none has been scheduled at this time.)

Impacts and Restrictions

During sewer replacement, driveway access may be impacted while crews work on your block. Please allow extra travel time should crews need to plate over the trench and create a path for your vehicle. If crews are working in front of your house, please let them know a few minutes before you need to exit your driveway. They may need to create a path of travel for your vehicle. We appreciate your cooperation and patience during construction.

Once the sewer work has been completed on a block, crews will begin preparations to repave the block or rebuild the concrete roadway. Preparations may include installation of curb ramps, concrete street base repairs, grinding (removal of existing asphalt) and roadway paving.

Vehicles parked in the construction zone during the posted work hours will be towed at the vehicle owner’s expense.

Please allow extra travel time during the posted work hours. We apologize for any inconvenience this may cause you.
