# POLK STREETScape PROJECT UPDATE

## A PROJECT OF THE CITY'S TEN-YEAR CAPITAL PLAN

There is only one San Francisco and we're taking care of it.

San Francisco Public Works will be making improvements to your neighborhood. This work will begin soon. Please look inside for more information regarding street access, work schedule, and street parking. If you have any questions or concerns, please contact us. We thank you for your cooperation and patience during construction.

# Polk Streetscape Project Construction Update

(October 21, 2016)

## Dear Polk Street Community Member,

San Francisco Public Works has contracted with **M Squared Construction Inc.** to conduct utility repair and infrastructure improvements in your neighborhood as part of the Polk Streetscape Project (Contract No. 2126).

We are reaching out to provide you with a construction update of the work that has been completed and pending work that will take place in the next few weeks.

Construction began on North Point Street, from Polk to Larkin streets (Segment 5), on **October 17, 2016.**

- Crews performed sewer utility repair work, starting with trenching and sewer pipe replacement. Sewer work will continue next week and is anticipated to be completed on 11/18/16.
- Once sewer work is complete, water main installation work will begin on North Point Street from Van Ness Avenue to Post Street, then on Polk Street from North Point to Bay streets.
- Once excavation and utility repair work is complete, crews will begin concrete flatwork (i.e. ADA curb ramps and Muni bus boarding island).

We thank you in advance for your patience as we complete these much needed infrastructure improvements and work to make Polk Street safer for all residents of San Francisco and apologize in advance for any inconvenience construction activity may cause.

\*\*\* **Please Note:** Construction scheduling is subject to change due to rain or other weather delays, equipment breakdown, and/or unforeseen field conditions. Please see posted "No Parking" barricades for exact parking restrictions. Restrictions may vary per block. \*\*\*

## Impacts and Restrictions

Street parking may be unavailable during different phases of construction. Access to private or commercial buildings and pedestrian pathways will be maintained at all times, however delays may be possible.

**“No Parking/Tow Away”** signs will be posted 72 hours in advance of work starting with project work hours and parking restrictions. Please observe parking and traffic signage and allow extra travel time in case of traffic delays during construction. Vehicles parked in the construction zone during posted work hours will be towed at the vehicle owner’s expense.

## Work Hours

**Monday - Friday: 8 AM – 4 PM**

*Weekend/evening work may be possible, but has not been scheduled at this time. The San Francisco Water Department usually performs water connection work at night, when demand for water service is reduced. You will be notified of any scheduled overnight tie-in work by SFWD.*

## Additional information:

For the latest information and to view a detailed map of the project segments, construction schedule and planned activity in each segment area, please visit our project webpage at: [www.sfpublicworks.org/polk](http://www.sfpublicworks.org/polk).

We are working closely with partner agencies to coordinate construction activity with other projects in the area. They include the Polk Street Traffic Signal Upgrade project, (Contract No. 2568), Polk Street, Union to Post streets) and the Van Ness Improvement Project with SFMTA ([www.sfmta.com/vanness](http://www.sfmta.com/vanness)).
