

## UPCOMING ROADWAY WORK

### **Magellan Avenue (12<sup>th</sup> Ave. to Plaza St.) and Pacheco Ave (8<sup>th</sup> to 9<sup>th</sup> Ave)**

#### Week of December 19, 2022 - Upcoming Grinding and Paving

The contractor is scheduled to grind and repave **Magellan Ave between 12<sup>th</sup> Ave and Plaza streets** and **Pacheco St between 8<sup>th</sup> Ave and 9<sup>th</sup> Ave**. This final phase of work is scheduled as follows:

- Tues - Wed 12/20- 12/21      Magellan Ave (12<sup>th</sup> Ave to Montalvo Ave) Grind existing roadway and Repave
- Wed- Thur 12/21-12/22      Magellan Ave (Montalvo Ave to Plaza St) Grind existing roadway and Repave
- Thur - Fri 12/22-12/23      Pacheco Ave (8<sup>th</sup> Ave to 9<sup>th</sup> Ave) Grind existing roadway and Repave

**Grinding Operations** - During the grinding phase (removal of existing asphalt from the roadway), access to enter and exit driveways will be maintained, however delays should be expected if crews are working on the lane closest to your driveway. Please allow extra travel time.

**Repaving Operations** - During the paving phase, driveway access may be delayed while crews work on the lane closest to your driveway. The contractor will apply a tack coat (liquid asphalt) to the roadway in advance of the hot asphalt. The tack coat promotes bonding between the concrete street base and the hot asphalt. During application of the tack coat and new asphalt, driveway access will not be possible until the asphalt cools-down. We apologize for the inconvenience.

\*\*\* Please note: The schedule is subject to change due to rain, equipment breakdown or unforeseen field conditions. \*\*\*
