

# West Portal Avenue and Quintara Street Water, Sewer and Paving Project

# FYI

**Locations:**  
West Portal Ave.  
(3-blocks 15<sup>th</sup> Ave.- Ulloa)

Quintara Street  
(4-blocks, 14<sup>th</sup> -10<sup>th</sup> Ave.)

**What's happening:**  
Contractor, Con-Quest has been selected as the Prime contractor.

**Anticipated Construction Schedule:**  
Spring 2015 through Summer 2016.

Pre-Construction Meeting has not been scheduled yet.

The project area is along 3-blocks of West Portal Avenue from 15<sup>th</sup> Avenue to Ulloa St, a commercial corridor serving the surrounding residential area west of Twin Peaks. The project will improve the infrastructure, making the area safer and more attractive for residents, businesses and visitors to the neighborhood.

**Project highlights:** This work will be performed in several phases over the duration of 16-months (498-days) and will resurface the roadway and repave the Muni tracks. Before that can occur there involves a lot of utility coordination with our partner agencies. Improvements include first, the water-main replacement on both sides of the street, along with sewer main work between 14<sup>th</sup> and 15<sup>th</sup> Avenue and at the corner of Ulloa. There will be added bulb-outs installed at Vicente St, along with new curb ramps along the project limits and lastly paving of the two parking lots. There will be no sidewalk renovations.

**Construction impacts:** Street parking will not always be available on blocks during construction work hours which are 9am-4pm Monday-Friday and 8am-4pm on weekends.

**Community Partnering:** Community and merchant representatives will be invited to attend partnering workshops with the Public Works Construction Management team in advance of the start dates to identify potential challenges and work through them.
