COLLECTIVE BARGAINING AGREEMENT

January 1, 2022 – December 31, 2026

BETWEEN

**RECOLOGY SUNSET SCAVENGER & RECOLOGY GOLDEN
GATE**

AND

**SANITARY TRUCK DRIVERS AND HELPERS UNION
LOCAL 350, IBT**

regulations for discipline, efficiency, and safety, providing, however, that exercise of such rights shall not conflict with the following provisions of this Agreement.

SECTION 5. JOB CLASSIFICATION AND WAGE RATES

(a) All occupations to which employees within the respective bargaining units are or may be assigned are classified into categories listed below. It is understood that the determination and operation of the job classification is the function and responsibility of the Employers and placement of employees in any of the following classifications shall be subject to the requirements of the Employers. Job descriptions for each of the classifications which are covered by this Agreement and which are utilized by the Employers are set forth in Section 23 of this Agreement.

(b) Each employee will be assigned to a classification, the duties of which he/she is competent to perform and which generally reflects his normal work. The fact that a job classification is listed herein does not necessarily mean that it must be utilized by the Employers.

(c) Any employee assigned by his Employers (Golden Gate or Sunset Scavenger) to perform work for any other Recology company shall, for the duration of such assignment, remain subject to the terms and conditions of this Agreement. Neither Employer shall assign its Regulated work, maintenance or shop work to employees of the other Employer.

(d) Any dispute involving job classifications shall be settled in accordance with the procedures set forth in Section 16 hereof.

Subject: Five Year Historical Weighted Average Trend

Dear Bruce:

This letter references Mercer’s estimate of Recology’s five-year historical weighted average trend for the active San Francisco employee population. Based on the calculation methodology detailed below, we estimate that this trend is 3.4% for the combined medical/Rx, dental, and EAP costs. This estimated trend of 3.4% is based on Recology’s historical experience adjusted to account for the impact of COVID-19; however, we have also reviewed Mercer’s trend guidelines as they relate to Recology’s plans and provided the analysis under *Observations* for context.

Methodology

We used Recology’s historical data that included fully insured medical/Rx, dental, and EAP renewal rate increases as well as the changes in per capita claim rates for the self-insured medical/Rx and dental plans for the years 2017-2021 adjusted for the impact of COVID-19. These rates relate to the medical/Rx and dental plans that cover Recology’s active San Francisco population.

The annual fully insured premium rate and self-insured claim changes are listed below:

| | 5 Year Weighted Avg. | 2021 | 2020 | 2019 | 2018 | 2017 |
|----------------|----------------------|-------|--------|-------|-------|--------|
| Aetna PPO | -0.5% | 3.7% | -11.6% | 2.9% | 13.9% | -15.7% |
| Aetna Select | 6.4% | 3.4% | 10.5% | 15.3% | -1.9% | -4.5% |
| Kaiser CA | 2.5% | -4.7% | 14.9% | 0.0% | 0.0% | 1.9% |
| Delta Dental | -1.6% | -8.2% | 9.4% | -6.0% | 0.0% | -1.6% |
| DeltaCare DHMO | 0.0% | 0.0% | 0.0% | 0.0% | 0.0% | 0.0% |
| Lyra – EAP | 0.0% | 0.0% | 0.0% | 0.0% | 0.0% | 0.0% |

We calculated the five-year weighted average trend adjustments based on Recology’s experience by plan using 5:4:3:2:1 weighting. This means that the most recent year’s trend is given a weighting of 5, the previous year is given a weighting of 4 and so on with the earliest year getting a weighting of 1. This methodology gives higher

credibility to more recent years' experience, as these years are likely to be more representative of current market conditions and Recology's current demographics and claims experience.

After calculating the COVID-19 adjusted, weighted average trend by plan, a combined rate is produced by weighting each rate by the projected 2022 cost for each plan. This produces a combined medical/Rx and dental rate of 3.4%.

Please note that these estimates reflect adjustments for COVID-19, which have impacted Recology's 2020 and 2021 trend. We employed our proprietary models to estimate the effect COVID had on 2021 claims. Based on that, we are estimating 2021 claims were dampened by 2.5% and 0.4% for the medical and dental programs, respectively. (Because the insured premiums include the insurers' estimates of the impact of COVID-19, we have not adjusted the reported increases for insured plans.) Without accounting for this dampening, the 2021 trend rates would have been as summarized in the table below.

| Plan | 2021 Unadjusted Trend |
|--------------|--------------------------------------|
| PPO/HDHP | 7.3% |
| EPO | 6.9% |
| Delta Dental | 11.8% |

The resulting estimated combined trend rate for all lines of coverage in the absence of COVID-19 is therefore estimated to be 3.4% in 2021.

Observations

For an employee population of this size, Mercer does not typically use the group's own historical trend experience when projecting future costs. For groups with fewer than 10,000 employees trend figures can be volatile and do not typically observe a predictable pattern. For this reason, we would tend to use a more general trend rate based on market experience and conditions when projecting future costs.

We have performed a similar analysis to the above based on Mercer's guideline trend assumptions for the same five-year period issued by Mercer's Actuarial and Financial Group. This analysis, which does not include any Recology-specific data other than weightings by plan type, produces a combined medical/Rx and dental trend rate of 6.3%.

Impact of COVID-19

At this time, the impact of COVID-19 on future healthcare costs is uncertain. Depending on many factors, the net effect on healthcare trend leading up to 2023 could be an increase or decrease. These factors include, but are not limited to:

- Duration of the pandemic
- Utilization of and costs of vaccines and treatment
- Changes in member behavior (such as increased utilization of telemedicine)
- Deferral of certain procedures

^{1/} Rate Schedule G-NGV1 was converted to Standard Status, rather than Experimental, effective August 30, 2008, due to Advice Letter 2945-G.

^{2/} Unless otherwise noted.

^{3/} This procurement rate includes a credit of \$0.20225 per therm to reflect account balance amortizations in accordance with Advice Letter 3157-G.

^{4/} Schedule G-PPPS (Public Purpose Program surcharge) needs to be added to the Total G-NGV1 Charge for bill calculation. See Schedule G-PPPS for details and exempt customers.

^{5/} The Cap-and-Trade Cost Exemption Credit is applicable to Covered Entities (i.e., customers that currently have a direct obligation to pay for allowances directly to the Air Resources Board for their Greenhouse Gas (GHG) emissions) who will see a line item credit on their bill equal to \$0.07366 per therm times their monthly billed volumes. See tariff for further explanation.
