

Meeting Date: April 30, 2026

To: Public Works Commission

Through: Carla Short, Public Works Director
Bruce Robertson, Deputy Director

From: Jacky Ng, Contract Manager

Subject: As-Needed LEED and Sustainability Services 2026 – Four Contract Awards

Director’s Recommendation: Award Professional Services Contract, As-Needed LEED and Sustainability Services 2026 in the amount of \$2,600,000 each for 1,825 calendar days to the following 4 contracts (each a “Consultant”): AECOM Technical Services, Inc., GLUMAC, Arup US, Inc., and Stok, LLC for LEED and sustainability services. Approve an increase of \$1,300,000 contingency to the total contract not-to-exceed amount. Also authorize the Director of Public Works to approve future contract modifications, increasing the total not-to-exceed amount to \$3,900,000 per contract.

Contract Background: The work to be done under this contract consists of LEED and sustainability services. The selected consultant provides specialized services in LEED and sustainability to support Public Works’ design staff on an as-needed basis. Work includes circular construction, deconstruction, building energy engineering and design, as well as post-construction services, such as building monitoring, commissioning, retro-commissioning, and performance optimization for City projects and related support services. A consultant may provide the requested services for an entire project, a portion of a project, or a project phase. Consultants have provided this type of services for the City in the past.

Each master agreement has a term of five-year term with an initial not-to-exceed amount of \$2,600,000. According to San Francisco Administrative Code Section 6.43(b)(1), cumulative modifications to a multiple-project as-needed contract shall not exceed 150% of the original not-to-exceed contract amount. Therefore, each contract may be increased by up to \$1,300,000, bringing the total not-to-exceed amount to \$3,900,000.

Solicitation Process: On September 30, 2025, San Francisco Public Works advertised the Request for Qualifications (RFQ) for As-Needed LEED and Sustainability Services 2026. Public Works sought to award four contracts with an anticipated not-to-exceed contract amount of \$2,600,000 with a contract duration of 1,825 calendar days. The Contract Monitoring Division (CMD) established a 15% Local Business Enterprise (LBE) subcontracting requirement for this contract.

On November 13, 2025, Public Works received nine proposals. City staff reviewed the proposals and determined that all nine proposals were responsive and responsible.

The responsive and responsible proposals were then evaluated and scored by a panel comprised of individuals knowledgeable on the subject matter. Optional oral interviews were not conducted.

The top four RFQ proposers for this contract were: AECOM Technical Services, Inc., GLUMAC, Arup US, Inc., and Stok, LLC.

Pyxis Partners	Cx				12.00%

Stok satisfied the “Good Faith Efforts” requirement.

Stok utilized Approach A and exceeded the LBE subcontractor participation requirement by 35%.

CMD finds AECOM, GLUMAC, Arup, and Stok are responsive to pre-award requirements of Chapter 14B. Once awarded, the contracts will be monitored for compliance with the LBE subcontractor participation commitment, as well as other 14B requirements.

Primary CMD contact for the contract: **James Chung**, james.chung@sfgov.org

CMD must be contacted immediately for:

- Subcontractor addition/substitution;
- Contract modification that cumulatively increases the original contract value by 20%;
- Prompt payment issues;
- Any other issues pertaining to LBE subcontractor participation.

Noncompliance may result in penalties, including monetary fines. Please communicate with CMD early.
