WHEREAS, On June 25, 2025, the Planning Department issued a determination (“CEQA Determination”) concluding that the pavement resurfacing, curb ramp upgrades, traffic control improvements, and other associated infrastructure work performed under this contract is within the scope of the FMND and would not require the preparation of a subsequent negative declaration under CEQA Guidelines Sections 15162 and 15168, provided that the applicable mitigation measures contained in the MMRP are implemented; and

RESOLVED, That this Commission finds that the work performed under this contract with the adoption of the applicable mitigation measures contained in the MMRP, would not cause new significant impacts or a substantial increase in the severity of impacts identified and analyzed in the FMND, no changes have occurred in the BSP since the adoption of the FMND that would cause new significant impacts or a substantial increase in the severity of impacts identified and analyzed in the FMND, and no new information has emerged that would materially change the analysis or conclusions set forth in the FMND; and that the actions approved herein would not necessitate implementation of additional or considerably different mitigation measures than those identified in the FMND; and be it
