(CM West), MicroEstimating, Inc., Saylor Consulting Group (Saylor), and Dabri, Inc.

Contract Background: The work to be performed under this contract consists of cost estimating services. The Consultant will be required to provide cost estimating services for various building, infrastructure, and landscaping projects. Tasks may involve submittal of cost estimates at different phases of the design, field visits, attending coordination meetings with the project manager and designers, and other related work. Projects requiring cost estimating services may include various building facilities, such as, library buildings, fire stations, police stations, health service centers, hospital buildings, recreation centers, parks, pump stations, and other City-owned facilities. Consultant may provide the requested services for an entire project, a portion of a project, or any project phase. Consultants have provided these types of services for the City in the past.

Solicitation Process: On March 7, 2024, San Francisco Public Works advertised the Request for Qualifications for As-Needed Cost Estimating Services No. 6 (RFQ) . The Contract Monitoring Division (CMD) established a 25% Local Business Enterprise (LBE) subcontracting requirement for this contract.

On April 18, 2024, Public Works received six proposals. City staff reviewed all proposals and determined that all six proposals were responsive and responsible.

The proposals were then evaluated and scored by a panel comprised of individuals knowledgeable on the subject matter.

Optional oral interviews were not conducted.
