

**Meeting Date:** December 15, 2023

**To:** Public Works Commission

**Through:** Carla Short, Public Works Director  
Ronald Alameida, Acting Deputy Director & City Architect

**From:** Lisa Zhuo, Project Manager

**Subject:** 911 Call Center Renovation – Contract Modification

---

**Director’s Recommendation:** Approve an increase of \$339,500 and 72 calendar days to Contract No. 1000027188 911 Call Center Renovation - Earthquake Safety and Emergency Response (ESER) Bond 2020 with Buhler Commercial (Buhler); and authorize the Director of Public Works to approve future modifications to the contract for a total contract amount of up to \$4,074,000 and total contract duration of up to 468 calendar days.

The work under this Contract was determined to be exempt from the California Environmental Quality Act (CEQA) under the Class 1 categorical exemption, as described in the CEQA Exemption Determine (Case No. 2019-005262ENV) contained in the Commission’s files for this contract modification.

**Contract Background:** San Francisco’s 911 Call Center (911 Call Center) is operated and managed by the Department of Emergency Management and located on the 2<sup>nd</sup> floor of 1011 Turk Street and houses public safety dispatchers who answer all calls made to 911. These dispatchers are the initial point of contact for all of San Francisco’s first responders, 24 hours a day. They serve as the communications hub that dispatches first responders to the scene of accidents, crimes, fires, and other emergency situations as well as non-emergency situations. The 911 Call Center is one of the top 25 busiest 911 call centers in the United States and receives an average of 3,700 calls each day. Since 2011, the 911 Call Center has experienced a 43 percent increase in 911 call volume. It is critical that the dispatch center can answer all calls for emergency and non-emergency service quickly.

Based on projected growth in 911 call volume, a 20 percent increase in 911 workstations is needed to keep pace with call volume demand and to meet national standards. The renovation of the 911 Call Center is necessary to increase the number of dispatcher workstations and to reconfigure the supervisor bridge to allow better visual oversight of all the dispatchers.

On March 3, 2020, San Francisco voters approved the \$628.5M Earthquake Safety and Emergency Response (ESER) Bond 2020 to fund seismic upgrades and much needed improvements to aging first responder facilities and capital infrastructure, including the 911 Call Center. On November 4, 2022, the San Francisco Public Works Commission approved Resolution No. 2022-008, awarding Contract No. 1000027188 to Buhler Commercial. On

January 5, 2023, the Notice-to-Proceed was issued to Buhler Commercial as the Prime Contractor for construction services.

**Reason for Modification:** The project team is working closely with Buhler Commercial to complete the project scope of work outlined in the construction documents, however, changes due to unforeseen conditions, client requests, design errors and omissions, code requirements, and other reasons have required the City to authorize Contractor change order requests pertaining to both construction cost and duration. Below is a breakdown of the Change Orders that have been approved to this date:

Change Order Breakdown:

Change Order Number	Amount	Duration (in calendar days)

	Once signed or stamped and dated, this document constitutes a categorical exemption pursuant to CEQA Guidelines and Chapter 31 of the Administrative Code. In accordance with Chapter 31 of the San Francisco Administrative Code, an appeal of an exemption determination can only be filed within 30 days of the project receiving the first approval action. Please note that other approval actions may be required for the project. Please contact the assigned planner for these approvals.	

## STEP 7: MODIFICATION OF A CEQA EXEMPT PROJECT

### TO BE COMPLETED BY PROJECT PLANNER

In accordance with Chapter 31 of the San Francisco Administrative Code, when a California Environmental Quality Act (CEQA) exempt project changes after the Approval Action and requires a subsequent approval, the Environmental Review Officer (or his or her designee) must determine whether the proposed change constitutes a substantial modification of that project. This checklist shall be used to determine whether the proposed changes to the approved project would constitute a "substantial modification" and, therefore, be subject to additional environmental review pursuant to CEQA.

### DETERMINATION IF PROJECT CONSTITUTES SUBSTANTIAL MODIFICATION

Compared to the approved project, would the modified project:	
<input type="checkbox"/>	Result in expansion of the building envelope, as defined in the Planning Code;
<input type="checkbox"/>	Result in the change of use that would require public notice under Planning Code Sections 311 or 312;
<input type="checkbox"/>	Result in demolition as defined under Planning Code Section 317 or 19005(f)?
<input type="checkbox"/>	Is any information being presented that was not known and could not have been known at the time of the original determination, that shows the originally approved project may no longer qualify for the exemption?
